Planting Cabbage Seed. We Own \$10,000.00 Worth of Farm Machinery Used Only for  
the Growing, Cultivating and Spraying of Vegetable Plants.

## SPECIAL NOTICE!

**SPECIAL NOTICE!** We are anxious to obtain the names and correct postoffice addresses of a number of your friends and acquaintances who are farmers and gardeners, who you think would be interested in receiving our price list. We are extremely anxious that this list be made correct so far as Names, Postoffice and Rural Route is concerned and in order that you may use care in compiling same, we will give you FREE some extra plants, if you will fill out the blanks below and send to us with an order for one thousand or more of any of our plants.

## TO THE TRADE

In presenting to you our 1937 Catalog, we wish to thank you for past business and ask a continuance of your patronage upon the record of our service in handling your orders.

We know that all our plants are grown from the very best seed obtainable, upon land especially adapted to the growing of plants and in a climate of just enough sunshine and cold to grow for the best quality.

We have the land, a large force of experienced men and equipment for handling plants properly and we know our service is second to none, regardless of the size of your order.

Today every line of industry is running full force. Employment is on the increase and every one of these workers has cash and is ready to buy fresh vegetables.

Your diversified program should include plenty for home use and some for local markets. You will sell on the early and high market by using our strong, healthy field-grown plants.

**Our Guarantee**—Knowing that seed or plants of the highest quality will often fail through improper treatment due to several reasons, we will not be responsible for the crop. However, we will refill or refund the purchase price on any order of plants not entirely satisfactory.

**How to Order Plants**—All plants are sold on cash basis, so make remittance by postoffice or express money order, drafts or checks. This will save extra cost to you in making collections and returning money to us by postoffice and express companies. However, we will make shipments C. O. D. if you prefer them that way. Be sure and state date you want shipment made.

**What to Do When Plants Arrive**—Unpack immediately and if weather is unfavorable for transplanting in the fields put on damp moss, or pack in cellar or trench them in ground until ready to set.

**Our Frost-Proof Cabbage Plants** are grown in the open fields and have been known to stand a temperature of 14 degrees above zero here without injury. They can be set much earlier than hot-bed, or cold-frame plants. The tops will not make much growth during the cold weather, but the roots will develop and have a good root system, and when the weather opens up they will make hard headed Cabbage much earlier than home-grown plants. It requires ten to fifteen thousand plants per acre.

---

***Be Sure to Give Shipping Date!***

# Frost-Proof Cabbage Plants

We can supply the following varieties:

**EARLY JERSEY WAKE-FIELD**—Best early and extensively used for home and market. Firm pointed heads with few outside leaves.

**CHARLESTON WAKE-FIELD**—Larger and less pointed than Early Jersey, and about ten days later.

**COPENHAGEN MARKET**—Early round-headed variety, popular in all markets, very firm and of the highest quality.

**GOLDEN ACRE**—Earliest round head variety, little smaller than Copenhagen Market and about a week to ten days earlier.

**EARLY FLAT DUTCH**—Sure-heading, compact and early. Heads flattened and solid, larger than other varieties.

**MARION MARKET**—A yellows resistant strain of Copenhagen Market Cabbage which is very dependable and popular throughout the north.

**GLORY or ENKHUIZEN**—Attractive, medium sized, round, solid heads of remarkably fine flavor.

**ALL SEASON**—An old standard variety.

**WISCONSIN ALL-SEASON**—(Wilt Resistant).

Either of the above varieties of plants at the following prices:

*We Ship Cabbage Plants 12 Months in Year*

## Bermuda Onion Plants

The Onion Plant business has grown in this section for the past few years until today Georgia is about as heavy shipper as Texas and, frankly, we know our plants are better than Texas grown plants. Onions grown from plants will keep much better than grown from sets, and you will always be glad you included Onion plants with your order. Set from thirty to sixty thousand plants per acre. We can supply the following varieties:

**CRYSTAL WHITE WAX**—This is a very popular variety, an absolutely pure white Onion of waxy appearance. The sweetest and mildest of all the Bermuda Onions. There is a good demand for this on account of its handsome appearance.

**WHITE or YELLOW**—This is a straw colored variety, exceedingly mild in flavor and very early. A very profitable sort for market gardeners and truckers.

**PRIZETAKER**—This variety is famous all over the country producing large Onions. They are straw color, extremely mild flavor and good keepers.

**RIVERSIDE SWEET SPANISH**—Sparkling white flesh. Mild, sweet, good quality and splendid keeper.

### *Bermuda Onion Plant Prices*

By Mail—Postpaid	Mail or Exp.—Not Prepaid

## Certified Tomato Plants

The Tomato Plant industry has grown with us until now it is our largest acreage. We are now prepared to give you

certified Tomato Plants. This certification shows that plants are true to name and are free of insects and injurious diseases, and have been grown under the supervision of a State Plant Pathologist. We will have five hundred acres for this season and can take care of your orders, whether for one hundred plants or a car load.

Tomato plants are six to ten inches high, about the size of a cedar pencil, with good root system. Plants are packed with roots wrapped in damp spagnum moss, in well ventilated crates, and can be set in the fields immediately when they reach you. Send your orders in for Tomato Plants at the same time you do Cabbage, or when ready, and be sure to state date you want shipment made. Set from four to six thousand plants per acre.

**EARLIANA**—A red early Tomato; very popular for home use.

**JOHN BAER**—About ten days later than Earliana; bright red and very attractive.

**BONNY BEST**—Favorite bright scarlet early variety, very vigorous growth and heavy yielder.

**RUTGERS**—The new variety developed by New Jersey Agriculture Experiment Station. Produces a vigorous plant, fruit resembles Marglobe but ripens a few days earlier and a brighter scarlet color.

**MARGLOBE**—This variety is recommended for its resistance to wilt and nail head rust. Fruits are medium size, smooth, red and globular shape. It is a good second early and continues to bear until frost.

**PRITCHARD (SCARLET TOPPER)**—An early heavy cropper, fruits globular shaped, and intense rich scarlet color. Fine all purpose tomato.

---

***Tomato Plants Are Not Frostproof***

OMEGA PLANT FARMS, INC., OMEGA, GEORGIA

---

**GREATER BALTIMORE**—This variety is excellent for canning. Produces a large, solid, smooth fruit of bright red color and excellent quality

**TOMATO PLANT PRICES**
